Education

Government Engineering College Rajkot
Computer Engineering - B.E.

Sep. 2021 – Aug 2025
CGPA 7.9

S.Z Waghela High School Khambhat
Higher Secondary - XII

March 2020 – May 2021
84 percent

Projects

DevTinder – MERN Stack Networking Platform | *Node.js, Express.js, React.js, Tailwind CSS, JWT, WebSocket, Nginx*

- Built a full-stack developer networking platform with **profile management**, secure **JWT authentication**, payment integration, and real-time updates via **WebSockets**.
- Developed a responsive frontend with **React.js** and **Tailwind CSS**, ensuring seamless cross-device user experience.
- Implemented robust form validation using **Zod** and integrated backend APIs built with **Node.js** and **Express.js**.
- Deployed production-ready application using **Nginx** for reverse proxy and **Node.js/Express** backend for scalable performance.

E-Commerce Website | *React, Redux, Firebase, Tailwind CSS*

- Developed a **React-based** platform for online shopping with real-time updates using **Firebase**.
- Implemented **responsive design** for optimal viewing on multiple devices.
- Utilized **React** and **Redux** for frontend and state management, with Firebase handling authentication and database.
- Deployed using **Firebase Hosting** for easy access and scalability.

Food Adda | *React.js, Redux Toolkit, Tailwind CSS, Swiggy's Live API*

- Integrated **Swiggy's API** to fetch real-time menu, prices, and availability.
- Designed a responsive UI using **Tailwind CSS** for an engaging user experience.
- Built state management with **Redux Toolkit** for smooth data flow and performance.

Experience

SilverTouch Technologies

Jan 2025 – Present
Ahmedabad, India

Software Developer

- Worked on multiple projects involving diverse tech stacks, delivering scalable and maintainable solutions.
- Customer Portal:** Developed features using **.NET Core MVC** integrated with **SAP Business One**, focusing on sales order creation, approval workflows, and notifications.
- Vendor Portal:** Developed features using **.NET Core MVC** integrated with **SAP Business One**, focusing on purchase order creation, approval workflows, and notifications.
- IFP Portal:** Contributed to frontend development using **Next.js**, implementing dynamic UI components and API integrations.
- Mission Vatsalya:** Enhanced functionality and optimized performance for government-related application modules.
- CLAMP Project:** Developed backend modules using **Laravel**, integrating REST APIs and ensuring secure data flow.

Technical Skills

Programming Languages: JavaScript (ES6+), TypeScript, C, C++, C#, PHP, SQL

Frontend: React.js, Next.js, Redux Toolkit, Tailwind CSS

Backend: Node.js, Express.js, .NET Core MVC, Laravel

Databases: MongoDB, PostgreSQL, MySQL, SAP HANA, Hasura

API & Integration: REST API Development, WebSockets, SAP Business One Integration

DevOps & Cloud: Docker, Kubernetes, Nginx, GitHub Actions (CI/CD)

Validation & Security: JWT Authentication, Zod Validation

Tools Others: Git, Postman, VS Code

Achievements

- Attained the **Runner up** in a National level Technical event at RK University.
- Got **3rd rank** in a state level technical festival of Christ College, Rajkot.
